

# FAIR SPECIAL!

A French statesman, Francois Guizot, once said, "Do not be afraid of enthusiasm, you need it; you can do nothing effectually without it." We needed it; we had it, and we used it; it was a new fangled fun for all of us.

Thanks? No, thanks are not needed; we got that with your support & response. The time now is for reflection...reflect on how you individually can keep our new fangled fun youthful, vibrant, and fresh. At no time feel as though your effort or presence is unimportant, as did the spoke of the wheel when the squeaky hub got all the grease; for our existence would be unnecessary, but for the likes of you. ---

Your Fair Committee
