

# 2019 Winter Show

## Plant Classes Alphabetized

**SAN DIEGO**  
Cactus & Succulent Society

| Genus                         | Class   | Genus                              | Class   | Genus                       | Class   |
|-------------------------------|---------|------------------------------------|---------|-----------------------------|---------|
| <i>Abromeitiella</i>          | 50      | <i>Dracaena</i>                    | 54      | <i>Notocactus</i>           | 14      |
| <i>Acanthocalycium</i>        | 14      | <b>Dracaenaceae</b>                | 56      | <i>Obregonia</i>            | 2       |
| <i>Adenium</i>                | 42      | <i>Dudleya</i>                     | 32      | <i>Opuntioides</i>          | 18      |
| <i>Adromischus</i>            | 37      | <i>Dyckia</i>                      | 50      | <i>Oroya</i>                | 16      |
| <i>Aeonium</i>                | 35      | <i>Echeveria</i>                   | 33      | <i>Oreocereus</i>           | 17      |
| <b>Agavaceae</b>              | 46- 47  | <i>Echinocactus</i>                | 6       | <i>Ortegocactus</i>         | 2       |
| <i>Agave</i>                  | 46      | <i>Echinocereus</i>                | 5       | <i>other Agavaceae</i>      | 47      |
| <b>Aizoaceae</b>              | 22 - 25 | <i>Echinopsis</i>                  | 12      | <i>other Asclepiadaceae</i> | 45      |
| <i>Alluaudia</i>              | 53      | <i>Encephalocarpus</i>             | 2       | <b>Other Cacti</b>          | 17 - 21 |
| <i>Aloe hybrid</i>            | 27      | <i>Epiphytic cacti</i>             | 19      | Other Cactus Genera         | 21      |
| <i>Aloe species</i>           | 26      | <i>Epithelantha</i>                | 2       | other Euphorbiaceae         | 40      |
| <i>Aloinopsis</i>             | 25      | <i>Eriogyne</i>                    | 13      | Other Succulent Genera      | 58      |
| <i>Anacampseros</i>           | 56      | <i>Escobaria</i>                   | 3       | <i>Othonna</i>              | 49      |
| <b>Apocynaceae</b>            | 42 - 43 | <i>Espositoa</i>                   | 17      | <b>Pachycauls</b>           | 57      |
| <i>Ariocarpus</i>             | 1       | <i>Euphorbia</i>                   | 38      | <i>Pachycormus</i>          | 57      |
| <b>Asclepiadaceae</b>         | 44 - 45 | <i>Euphorbia</i>                   | 39      | <i>Pachyphytum</i>          | 34      |
| <b>Asphodelaceae</b>          | 26 - 29 | <b>Euphorbiaceae</b>               | 38 - 40 | <i>Pachypodium</i>          | 43      |
| <b>Asteraceae</b>             | 48 - 49 | <i>Faucaria</i>                    | 24      | <i>Parodia</i>              | 14      |
| <i>Astroloba</i>              | 29      | <i>Ferocactus</i>                  | 6       | <i>Pedilanthus</i>          | 40      |
| <i>Astrophytum</i>            | 1       | <i>Ficus</i>                       | 55      | <i>Pediocactus</i>          | 9       |
| <i>Avonia</i>                 | 56      | <i>Fockea</i>                      | 45      | <i>Pelargonium</i>          | 41      |
| <i>Aztekium</i>               | 2       | <i>Fouquieria</i>                  | 57      | <i>Pelecyphora</i>          | 2       |
| <i>Beaucarnea</i>             | 47      | <i>Frailea</i>                     | 10      | <i>Petopentia</i>           | 45      |
| <i>Blossfeldia</i>            | 10      | <i>Gasteria</i>                    | 28      | <i>Pleiospilos</i>          | 24      |
| <i>Bombax</i>                 | 57      | <b>Geophytes</b>                   | 57      | <b>Portulacaceae</b>        | 56      |
| <i>Borzicactus</i>            | 16      | <b>Geraniaceae</b>                 | 41      | <i>Pseudolithos</i>         | 45      |
| <b>Bromeliaceae</b>           | 50 - 51 | <i>Graptopetalum</i>               | 34      | <i>Pyrrhocactus</i>         | 13      |
| <i>Buiningia</i>              | 10      | <i>Gymnocactus</i>                 | 4       | <i>Raphionacme</i>          | 45      |
| Bulbs                         | 59      | <i>Gymnocalycium</i>               | 14      | <i>Rebutia</i>              | 15      |
| <i>Bursera</i>                | 52      | <i>Hamatocactus</i>                | 6       | <i>Sansevieria</i>          | 54      |
| <b>Burseraceae</b>            | 52      | <i>Haworthia</i>                   | 29      | <i>Sarcocaulon</i>          | 41      |
| <i>Calibanus</i>              | 47      | <i>Hechtia</i>                     | 50      | <i>Sclerocactus</i>         | 9       |
| <i>Caralluma</i>              | 44      | <i>Hoodia</i>                      | 44      | <i>Sedum</i>                | 36      |
| <b>Caudiciforms</b>           | 57      | <i>Horridocactus</i>               | 13      | Seed grown by exhibitor,    |         |
| <i>Ceraria</i>                | 56      | <i>Huernia</i>                     | 44      | cactus or succulent         | 62      |
| <i>Ceroids, columnar</i>      | 17      | <i>Jatropha</i>                    | 40      | <i>Senecio</i>              | 48      |
| <i>Commiphora</i>             | 52      | <i>Kalanchoe</i>                   | 31      | <b>South American Cacti</b> | 10 - 16 |
| <i>Conophytum</i>             | 23      | <i>Leuchtenbergia</i>              | 3       | <i>Stapelia</i>             | 44      |
| <i>Copiapoa</i>               | 11      | <i>Lithops</i>                     | 22      | <i>Stenocactus</i>          | 4       |
| <i>Coryphantha</i>            | 3       | <i>Lobivia</i>                     | 12      | <i>Strombocactus</i>        | 2       |
| <i>Cotyledon</i>              | 30      | <i>Mammillaria; hooked spine</i>   | 7       | <i>Submatucana</i>          | 16      |
| <i>Crassula</i>               | 31      | <i>Mammillaria; straight spine</i> | 8       | <i>Succulent bonsai</i>     | 61      |
| <b>Crassulaceae</b>           | 30 - 37 | <i>Matucana</i>                    | 16      | <i>Sulcorebutia</i>         | 15      |
| Crests, cacti                 | 20      | <i>Melocactus</i>                  | 10      | <i>Tacitus</i>              | 34      |
| Crests, Succulent             | 60      | <i>Mestoklema</i>                  | 25      | <i>Thelocactus</i>          | 9       |
| <i>Cucurbits</i>              | 57      | <i>Monadenium</i>                  | 40      | <i>Tillandsia</i>           | 51      |
| <i>Dendrosicyos</i>           | 57      | Monstrose, Cacti                   | 20      | <i>Titanopsis</i>           | 24      |
| <i>Didierea</i>               | 53      | Monstrose, Succulent               | 60      | <i>Trichodiadema</i>        | 25      |
| <b>Didiereaceae</b>           | 53      | <b>Moraceae</b>                    | 55      | <i>Turbinocarpus</i>        | 4       |
| <i>Dinteranthus</i>           | 24      | <i>Neobesseyia</i>                 | 3       | <i>Tylecodon</i>            | 30      |
| <i>Dioscorea</i>              | 57      | <i>Neochilena</i>                  | 13      | <i>Uebelmannia</i>          | 10      |
| <i>Discocactus</i>            | 10      | <i>Neolloydia</i>                  | 3       | Variegates, Cacti           | 20      |
| Dish Gardens                  | 63      | <i>Neoporteria</i>                 | 13      | Variegates, Succulent       | 60      |
| <b>Division 1: Cactus</b>     | 1 - 21  | <i>Nolina</i>                      | 47      | <i>Weingartia</i>           | 15      |
| <b>Division 2: Succulents</b> | 22 - 61 | <b>North American Cacti</b>        | 1 - 9   | <i>Yucca</i>                | 47      |
| <i>Dorstenia</i>              | 55      |                                    |         | <i>Zygosicyos</i>           | 57      |
