PRESIDENT'S MESSAGE

Greetings! It is finally here—after 3 years, the SDCSS June Show and Sale is back. I must say I have missed this event—despite the weeks of preparations, the three days of 10-12 hour work days, lots of heavy lifting—I have missed this event. *What makes it all worthwhile?* you might ask if you are new to this organization. For me, it is the wonder of seeing the Show on Saturday morning and all those fantastic plants, the looks on peoples faces when they find that special plant in the Sale, the enthusiasm of the volunteers like the cashiers still smiling and chatting with buyers even after hours of work, chatting with all the people about plants, and the real joy I get from working with such an awesome team. All of these reasons are why I am excited to have the June Show and Sale back.

If you weren't able to make it to the May meeting and missed out on our beautiful 61st anniversary t-shirt, there is still a good selection. Be sure and pick one up during the 9-11am members-only shopping opportunity on Saturday morning, as they'll be made available to the public afterwards.

One of my favorite parts of the Show is putting together Educational Displays, which I have done regularly over the past 30 years. I am excited about the one I am doing this year featuring plants from Madagascar, home to all my favorite plants. If you are planning a display or a large collection of plants, please inform Dean Karras, the Chair of the Show, so he can reserve space for you.

Whether you are bringing a display, a collection of plants, or just a few of your favorites: **please bring plants!** Whether you're a beginner, intermediate, or a vintage collector: **please bring plants!** Life is about participation, and this is a fun and fulfilling way to participate!

Oh yeah, did I mention: BRING PLANTS! Your plants, the public, and I, all want you to participate!

If you did not get a chance to sign up to volunteer, don't worry. Simply show up and ask where you are needed, and spend a few hours enjoying being part of this wonderful event. Best wishes, and see you at the Show.

P.S. Bring plants!

Pam Badger
May 24, 2022

SHARE YOUR PASSION!

Have you ever read the *Espinās Y Flores* Newsletter 'Plant of the Month' article and thought - "I could do that!" Why not participate by writing a piece for our **Plant of the Month** feature?

Pick a genus or species that interests you, do a little research, find or take a few pictures and create an article to share with the club!

MEET A MEMBER

Terry in his beautiful garden in La Mesa

Many years ago Denise Huntsman, club historian at the time, did a wonderful profile of Terry and his wife Collette. Terry and Collette are long time members of the club who had been very actively involved since the early 90's serving on the Board of Directors, volunteering at our annual Show and Sales, and eventually becoming vendors after starting a nursery with their son Kienan. Collette passed away in December 2019—a sad loss for our organization and her entire family—and Terry has not been around as much primarily due to the pandemic and the reminders of Collette. We are so pleased to have Terry back and judging the Novice category at our June Show. Look for some of his awesome plants on display as well.

PAM BADGER

PRE-SHOW PLANT PREPARATION GUIDE (ORIGINALLY PRINTED FEB 2022)

One of Peter Walkowiak's beautifully staged winning plants from the 2019 Winter Show

Whitney Meyer

Let me start off saying that the details of this article would normally be covered in more depth, with visual aids, in a pre-meeting workshop at a regular meeting. As these are not normal times, we are left to do the best we can with what we have.

First, it can't be emphasized enough that this is *your show*. We want you to enter plants and we need you to volunteer. Our shows are the largest social events of the year for the society. We encourage you make new friends, learn new things, talk about your plants, win ribbons, have fun and maybe find a new plant or two.

Let's begin with **prepping** your plants. Start by watering your plants the weekend before the show. This will let your plants be hydrated but dry for the show tables. If you need to use any insecticide, also do this the week before the show. If you have any calcium (salt) build-up on your pots, clean it off with an old tooth brush and vinegar. With a damp cloth wipe any dirt and debris from the pots. Salt and

dust/dirt on the plants can be removed with water and a soft brush or cloth.

Next, **look** at the plant. Remove any garden debris and/or weeds from the pot. Check for insects and spiders. They can be removed with small brushes, tweezers, fingers, or what ever else works. Succulents may have dead leaves, stems or old flowers, clip or prune to remove. Cactus frequently have old flower remains or garden bits in the spines. Remove with tweezers. The trick is to clean the spines without breaking them. Small Agaves and Aloes often have dried leaves at the base of the plant. These can be removed or left on depending on how distracting it is to the looks of the plant. The drying leaf tips of the same group of plants may also be left or removed.

Now that you have a clean pot and plant we need to think about **top dressing**. Top dressing is the visual equivalent of matting a print or painting. It sets the plant off from the growing medium.

PRE-SHOW PLANT PREPARATION GUIDE (ORIGINALLY PRINTED FEB 2022)

Top dressing is commonly gravel, crushed rock, pea gravel, coarse sand, etc. While the choice of top dressing is up to your preference, keep in mind that it should enhance, not distract from the plant. Bright colors are often distracting. You can look for top dressing at garden centers, aquarium stores, pet stores, and building supply centers.

Nicely staged succulents

Whitney Meyer

Now that the plant is all groomed for showing we come to the hardest part of the process (at least according to the show clerks), **filling out the entry cards**. The cards come in four colors: green for novice, yellow for intermediate, blue for open, and white for non-judged. Refer to the show rules for your appropriate category. You will notice that the cards divided into two sections, fill in **BOTH** sections. Also PLEASE PRINT (no cursive).

In the exhibitor space: print your name. In the division space there are four options: Division I, one cactus plant or clump. Division II, one succulent plant or clump. Division III, dish gardens, more than one plant or multiple types of plants. And Division IV, anything goes, plants plus nonplants.

In the newsletter, on the web site, and on printed pages at the show, you will find the various class numbers for your plants. These numbers correspond to the species family of the plants. The class number is followed by the size designation, i.e.

23A, 44B, etc. If the inside of the pot measures, height plus width, 10 inches or less it is the A category. If the height plus width is greater than 10 inches it is then in the B category.

In the variety section of the entry card enter the specific species, hybrid, or hybrid cross name of the plant. The class and variety information should match the information on your plants ID tag. After completing the entry cards, take the plant and corresponding card to the class numbered areas on the show tables. Remove the plant ID tag and place the plant on top of the entry card on the table. Repeat for your next plant. Thanks for your support of the show and good luck.

In wrapping this up, if you have any questions there will be fellow society members to help identify plants and answer questions in the show room Friday afternoon and Saturday morning.

JERRY GARNER

Judges at the 2019 Winter Show

SAFETY POLICY

The SDCSS 2022 Summer Show and Sale shall abide by current Balboa Park COVID-19 safety recommendations.

For your safety masks are strongly recommended for show and sale attendees, especially in crowded and/or indoor areas.

THE SAN DIEGO CACTUS & SUCCULENT SOCIETY P. O. Box 33181, San Diego, Ca 92163-3181,
is a public service and educational (nonprofit tax exempt) organization.

2022 SDCSS SUMMER SHOW INFORMATION & RULES

The SDCSS Summer Show is open to anyone who grows succulent plants. There is no limit to the number of entries per class or the number of classes entered, though no entry can be entered in more than one class. All property shall be marked with the owner's name, not visible to the judges. The exhibitor must have grown the plant for at least six months.

All entries must have properly filled entry cards and must be entered in the appropriate Division and Class (see pgs 9 & 10) to be eligible for awards. Exhibitors are responsible for placing these items with their entries. For the *Best Plant Grown From Seed* award, the exhibitors must have raised the plant themselves. Plants may be species or hybrids. Hybrids may be exhibited in the class of either parent. Grafted plants will be accepted in any class, though awards for grafts will be selected from Division IV.

Entries must be clean, healthy, pest-free, and dry. Remove any plant nametags from pots (except for collections and displays). Awards must remain with exhibits until the close of the show. Classes with few entries may be combined. The show committee reserves the right to reject plants or exhibits and to readjust entries for the good of the show. Show hours must be followed. The San Diego Cactus and Succulent Society will exercise due caution in safeguarding exhibits. However, SDCSS cannot assume responsibility for loss of property. Entries are judged against perfection. The judges' decisions are final. In the case of disputes and/or ties, the Show Chair (or if the Chair's plants are involved, the Head Clerk) shall make the final decision.

Trophies and plaques are perpetual, except the educational and novice awards. Winners will receive a hand-crafted pot and a certificate suitable for framing. 1st, 2nd and 3rd place ribbons will be awarded in each class; however, should the judges feel that a 1st, 2nd, or 3rd place is not merited, no awards will be given. To receive the *CSSA Award*, two or more educational displays must be entered. Judges, Club President, and Show Chairman will each award two rosettes to their favorite plants.

CACTUS

Best Cactus	Phillip Corliss Plaque
Best Novice Cactus	SDCSS Plaque
Best Intermediate Cactus	Jürgen Menzel Trophy
Best Epiphytic Cactus Plant	William & Ruth Nelson Trophy
Best <i>Mammillaria</i>	Elibet Marshall Trophy
Best <i>Opuntieae</i>	James & Shirley Berry Trophy

SUCCULENTS

Best Succulent	Ruby Falk Plaque
Best Novice Succulent	SDCSS Plaque
Best Intermediate Succulent	Rudy Lime Trophy
Best <i>Agave</i>	Doris Rake Plaque
Best <i>Aloe</i>	Barbara Jeppe Trophy
Best <i>Bursera</i>	Jeff Harris Trophy
Best <i>Echeveria</i>	Oliver & Sophie Loyland Trophy
Best <i>Euphorbia</i>	Russell & Lydia Evans Cup
Best <i>Mesemb</i>	Samuel & Adela Markey Trophy
Best <i>Pelargonium</i> or <i>Sarcocaulon</i>	Wilna Johnson Trophy
Best <i>Sansevieria</i>	Richard G. Latimer, Sr. Trophy

CACTUS OR SUCCULENTS

Best Baja Plant	Richard G. Latimer, Jr. Memorial Trophy
Best Graft	Bob & Suzanne Taylor Trophy
Best Mexican Plant in Show	Dudley B. Gold Trophy
Best Plant Grown From Seed	Tegelberg Family Plaque
Rarest Plant in the Show	Terry & Collette Parr Trophy
Best San Diego County Succulent	Julianne Rice Trophy
Best Miniature	Monte & Mary Woodworth Plaque
Best Pachycaul or Caudiciform	H. Warren & Virginia Buckner Trophy
Best Succulent Bonsai	Rudy & Teresita Lime Trophy
People's Choice Award	Rose D'Attilio Memorial Plaque

DISPLAYS, EXHIBITS AND HIGH POINTS

Best Educational Display	CSSA Award
Best Exhibit	Reuben Vaughan Plaque
Most Artistic Display	Walter & Hazel Scott Plaque
High Points 25 or fewer entries	SDCSS Plaque
High Points 50 or fewer entries	James & Shirley Berry Trophy
Sweepstakes Trophy	Ronald & Marcia Monroe Trophy

2022 SDCSS SUMMER SHOW INFORMATION & RULES

TIMES

Sales area setup: Fri June 3, 1pm—6pm **Showroom setup:** Fri June 3, 9am—12:30pm
Bring in Show plants: Fri June 3, 1pm—6pm, Sat June 4, 8am—9:30am (out of town participants only)

SATURDAY 9am—11am **members only sale** (membership card required)
 11—5pm sale open to the public
 10am—3pm show times

SUNDAY 10am—3pm sale open to public
 10am—3pm show times

JUDGING SCALE - SPECIMENS, COLLECTIONS AND DISPLAYS

Condition: 70% **Staging:** 15% **Size & Maturity:** 10% **Nomenclature:** 5%

EDUCATIONAL DISPLAY

Two or more entries must be exhibited for CSSA award. **Educational Value:** 80% **Staging & Originality:** 20%.

AWARDS POINT SYSTEM

Divisions I, II and IV: 1st = 3 pts, 2nd = 2 pts, 3rd = 1 pts **Division III:** 1st = 7 pts, 2nd = 5 pts, 3rd = 3 pts
Division V: 1st = 12 pts, 2nd = 10 pts, 3rd = 8 pts **Division VI:** no points but entries are eligible for plaques, trophies and rosettes **Plaques and Trophies:** 10 pts **Rosettes:** 5 pts

ENTRY NOTES: PLEASE USE THE MOST CURRENT CLASSIFICATION SCHEDULE. Classes 1-116 (except for 44,105 and 108-111) are divided into two pot sizes: **A and B** (**A:** Width plus Length = 10 inches and under; **B:** W+L over 10). Note that **one** plant per container is allowed in these classes.

PICK UP YOUR SHOW ENTRY CARDS EARLY AT THE MAY MEETING!

The categories for competing entries are:

GREEN cards for exhibitors that have won 10 or less blue ribbons in a recognized cactus and succulent show.

YELLOW cards are for participants that have won more than 10 blue ribbons

BLUE cards are for vendors and those that wish to compete against them. Awards will be selected from any category

2022 SDCSS SUMMER SHOW DIVISIONS & CLASSES

DIVISION I - CACTI		Euphorbias – New-World	
South American Cacti		60	Agaloma group
1	Blossfeldia, Cholla, Frailea	Other Euphorbiaceae	
2	Copiapoa	61	Jatropha, Pedlaranthus
3	Denmoza, Matucana, Oroya	62	Monadenium
4	Discocactus, Melocactus	Aizoaceae	
5	Echinopsis, Lobivia, Solfrensia	63	Conophytum
6	Episyce, Neochilena, Neoperleia	64	Limops
7	Gymnocalyxium - clumping	65	Abnopsis, Argyroderma, Fenestraria, Pleiospilos
8	Gymnocalyxium - solitary	66	Mesoklema, Trichodiadema
9	Opuntoids	Apocynaceae	
10	Parodia, Notocactus	67	Adenium
11	Rebutia, Wengaria	68	Pachypodium, Africa
12	Sulcorebutia	69	Pachypodium, Madagascar
13	Tube Flowered Cereids	Asclepiadaceae	
14	Lebelmannia, Buringia	70	Carattuma, Hoodia, Huernia, Pseudolithos, Stapelia
15	Wide Flowered Cereids	71	Ceropegia, Cynanchum, Hoya, Sarcostemma
North American Cacti		72	Fockea, Petropentia, Raphionacme
16	Acharagma, Coryphantha, Escobaria	Crassulaceae	
17	Anastrocactus, Pedocactus, Solirocactus	73	Aeonium, Sedum, Sempervivum
18	Aniocardus	74	Cotyledon, Tylecodon
19	Astrophytum	75	Crassula, Adromischus
20	Aztekium, Epithelantha, Obregonia, Pelocyphora, Strombocactus	76	Dudleya
21	Echinocactus	77	Echeveria
22	Echinocereus - pectinate spines	78	Kalanchoe
23	Echinocereus - straight spines	79	Pachyphytum, Graptopetalum, Tacitus
24	Echinofossulocactus, Stenocactus	Liliaceae	
25	Ferocactus	80	Abe, African
26	Gymnocactus, Neofolydia, Turbinocarpus	81	Abe, Madagascar
27	Hamatocactus, Leuchtenbergia	82	Abe hybrids
28	Opuntoids	83	Agave
29	Thelocactus	84	Astrobbia, Gastera
30	Wide Flowered Cereids	85	Beaucarnes, Calbarus, Dracaena, Yucca
Genus Mammillaria		86	Haworthia
31	Subgeneres Cochemia, Dolichothela, Mammillopsis, Mammillopsis, Delmeia	87	Haworthia hybrids
Subgenus Mammillaria		88	Senecioia
32	Series Ancistracanthae	Other Succulent Families	
33	Series Decipientes, Heterochlorae, Proliferae	89	Asteraceae
34	Series Lasianthae	90	Bromellaceae
35	Series Leptocladocae, Sphacelatae	91	Caudiciforms and Geophytes
36	Series Leucocephalae, Mammillaria, Polyedrae	92	Cucurbitaceae
37	Series Longiloriae	93	Didiereaceae
38	Series Polycanthae	94	Fouquieriaceae
39	Series Stylothelae Group Bombycina	95	Geraniaceae
40	Series Stylothelae Groups Crinita, Glassii, Otteri	96	Moraceae
41	Series Superbiae	97	Pachycaulis, New World
Other Cactus Classes		98	Pachycaulis, Old World
42	Crested Cacti	99	Passifloraceae
43	Epiphytic Cacti	100	Portulacaceae
44	Miniature Cactus, less than 3 inches	101	Vitaceae
45	Monstrose Cacti	Other Succulent Classes	
46	Peskia	102	Bulbs
47	Variegated Cacti	103	Cycads
47X	Any Other Cactus Genus	104	Orchids
DIVISION TWO - SUCCULENTS		105	Miniature Succulent, less than 3 inches
Euphorbias - African		106	Crested, Monstrose Succulents
48	Anthacantha group	107	Variegated Succulents
49	Dactylanthites, Esula, Polygonae, Pseudoeuphorbia, Tetracanthum, Trexia, Triacanthum and Trigona groups, and Geophytes	107X	Any Other Succulent Genus
50	Grandifoliae group	DIVISION III - COLLECTIONS AND ARRANGEMENTS	
51	Medusae, Eastern & Western cape	108	Cactus Collections***
52	Medusae persistent peduncle, Pseudomedusa	109	Succulent Collections***
53	Melaeuphorbia group	110	Dish Gardens*
54	Scolopendriae	111	Anything Goes**
Euphorbias - Madagascar		DIVISION IV - SPECIALTIES COMBINING CACTI AND SUCCULENTS	
55	Ankarensis group, prostrate stems and shrub type	112	San Diego County Succulent
56	Ankarensis group, with caudex	113	Baja, Mexican Succulent
57	Bosseri and Traucati groups	114	Grafted Succulent
58	Lacanthia lophogona, Lacanthia viguieri, Pedlaranthoides and Ferrier groups	115	Seed grown by exhibitor
59	Lacanthia, mlr group	116	Succulent bonsai
DIVISION V - DISPLAYS		DIVISION VI - ART	
117 Displays and Exhibits		118	Paintings
118 Paintings		119	Photography
119 Photography			

* Dish Gardens - A combining of one or more plants for a scene or theme

** Anything Goes - Creative use of succulent plants, pots and other media

*** Collections - A set of 6 - 10 different specimens that are related by a common theme, genus, form, color or other character

ADDITIONAL SUMMER SHOW INFORMATION

SHOW AND SALE FOOD

SDCSS will once again be providing breakfast and lunch for vendors and volunteers at the June Show and Sale.

As covid restrictions have lightened up considerably, we will be using a hybrid of the old ways and how we operated in February. There will be lunch time tickets included with your badge for both days, and we will be eating outside. Food will be a bit more varied and you will be able to make your own sandwiches. We will bring back pot-luck salads and desserts so bring something to share if you are so inclined. A few crock-pots of chili would be appreciated - if you are able to contribute, please let me know at pambad1@mac.com.

Coffee, tea, and breakfast foods will be available in the mornings.

If you are not already signed up elsewhere, please come help out in the

EARLY SHOPPING CHANGES

With the new wonderful E-cards for our Membership Cards, the following new rules will be in place for our upcoming Early Shopping Events.

ABOUT: Choose from 5 ways to show your current member status at the entrance for Early Shopping:

1. Paper (Membership) card with proper expiration date
2. Copy of E-card from your desktop
3. E-card image on your cell phone
4. Image of your pay-pal receipt on your cell phone
5. Proof of joining/renewing at the tent that morning.

IMPORTANT CHANGES:

1. If you don't have 1 of the 5 documents to show you're a current member, you won't be able to shop early

NEW MEMBER CARD SYSTEM

Your membership card now comes in E-card format!

Every new member as well as renewing member has received an E-card by email with a valid through date.

- o Use at library and early entry for special events such as the yearly Show and Sales.
- o Your card will be emailed within 1 week of receiving your membership dues payment.
- o Image provided in .jpeg format so it can be stored digitally or physically printed

CORING AND AGAVES – UPDATE

If you were present at our December meeting you were treated to a wonderful presentation on Agaves by Jeremy Spath. During the pandemic shut down we began having online Zoom meetings - in the first one Kelly Griffen made a visit to Jeremy's green house and included a demonstration of 'coring' with a rare Agave. I was fascinated so when Jeremy came to our in-person meeting I decided to have him core one of my agaves - I was chicken to do it myself. It seems like a rather brutal process, the goal being to have the plant create offsets which can be removed from the mother plant and grown. this is the plant now, almost 6 months later it has 4 offsets - one in the center and 3 growing from the stem.

SAFARI PARK GARDEN UPDATE – MAY 2022

Adenium arabicum – This plant had been sitting in the greenhouse for years because we are afraid of it rotting in our cold winter rain if we plant it in ground. It's such a beautiful plant and it's a shame for it to sit in the greenhouse. We finally decided to display it in a nice big pot in the garden. Keeping it in a pot means that we can move it to shelter if the weather hits one of those long spells of cold rain. It has survived its first "winter".

SAFARI PARK GARDEN UPDATE – MAY 2022

Uncarina peltata – This was planted in 2015. It should have been growing into a nice big bush, with beautiful yellow flowers. However, as you can see, it's in a cage. The deer loves it and will munch on it till nothing is left. After several years of losses, we finally built a cage enclosing the whole plant. We hate to do this. Hopefully, when it gets big enough, we can liberate it from solitary confinement. Last year, the gophers did their dirty work and ate ½ of the fat caudex :[We cleared the ground around it so we can detect the advance of gophers in the future.

SAFARI PARK GARDEN UPDATE – MAY 2022

Moringa stenopetala – Most of you are familiar with the common *Moringa oleifera* (the Drumstick tree) which is a native to India and source of vegetable and medicine for local people. This *Moringa stenopetala* is from Africa and will form a nice bottle-shaped trunk.

Planted 8/2015 – 3" trunk

Now 5/2022 → 12" trunk; a very fast grower!

Another smaller *Moringa stenopetala* was planted a year later. Wonder why this one is so much slower growing than the other one? This one is planted in the deer path. Deer ate it, bumped into it, tore it up. We finally put up a fence around it 2 years ago. It's now seeing growth, from 2" to 4" trunk!

Planted 10/2016 – 2" trunk

Now 5/2022 – 4" trunk

SAFARI PARK GARDEN UPDATE – MAY 2022

Adansonia kilima – This beautiful baobab tree can grow at Kilimanjaro, so it should be able to tolerate our “cold SD North County winters.” This was gifted from the San Diego Zoo (Thank you SDZ). We planted it during our wet winter, and it promptly lost all its leaves. It’s warm now, and the bare branches are sprouting out healthy leaves. Let’s hope we’ll see a 2’ diameter trunk in 100 years (?)

If you want to donate or volunteer, please email mayfongho@yahoo.com or text 760-233-3948.
